

Milwaukee Bolt Earmuffs - 24DB

RMW48-73-3250

Details

The Milwaukee BOLT Earmuffs are designed for adjustable, comfortable wear. These cap-mounted earmuffs provide an adjustable fit thanks to the center-mount design. The earmuffs also allow for balanced wear with a 360 degree rotational arm that can pivot to multiple storage positions when not in use. The comfortable, pressure-reducing cushion helps avoid pressure and discomfort when wearing the earmuffs for extended periods. These earmuffs have the indicated NRR to protect you against hazardous noise and are CSA Class A certified. Milwaukee earmuffs are a part of the BOLT System that allows users to secure accessories simultaneously. Certified for use with MILWAUKEE Safety Helmets and Hard Hats.
