

Alloy Hollow Side-Eject Tine - .750MT x 4.750L x .660OD R108-9161

Details

Manufactured from special high-carbon alloy tubular steel with a precision machined slot in the side wall to allow for more efficient core removal in heavy soils. R&R's unique method of machining maintains the maximum side wall height for strength to avoid bending. These tines are through hardened to RC45-48 to create a much tougher and more wear-resistant tine.
