

Underhill Coolpro Fog Nozzle with Aluminum Valve - 3/4in FHT - 4-6 gpm @ 80PSI

RG620

Details

A hot summer day can be murder on your greens. Use too much water and you risk damage to the roots. CoolPro is the first nozzle specifically designed for the single purpose of lightly misting the turf canopy to cool without over watering, and its 25 foot fogging pattern gets the job done quickly. Perfect for tournament play, CoolPro puts down only enough water to cool the turf canopy. It prevents wilting while maintaining good ball speed. Agronomic handle valve ensures easy grip and variable on/off control. All metal zinc and aircraft aluminum construction for long life.

- All-metal zinc and aluminum construction
- 4-6 GPM at 80 PSI
- 3/4" hose thread
- Patented Precision nozzle fogs at 70psi to deliver 25ft pattern
