

Tournament Nozzle with Brass Shut Off

RG90031

Details

The Tournament Nozzle with brass shut off provides full flow cooling at 3 GPM. The hydration created by a constant fine uniform mist replenishes while cooling the turf for pre-tournament or heat stress situations without over watering. Comes complete with a 1" NSPH or 3/4" GHT connection and brass shutoff valve providing flow control at your finger tips. Fits 3/4" GHT and 1" NSPH. Made in U.S.A.

- Brass shut off
- Full flow cooling at 3 GPM
- Fine mist replenishes & cools turf
- 1" NSPH or 3/4" GHT connection included
- Made in USA
