

Rain Bird Square Pattern Nozzle - Purple Quarter Pattern

RGX54902

Can be used on...
The SQ Nozzle is an ideal solution for a wide range of difficult-to-design areas, thanks to its compatibility with popular irrigation products.

- Square spray pattern and pressure compensation offer increased efficiency and control, reducing overspray, property damage, and liability.
- Simplify design and installation with the flexibility of applications.
- Pressure compensation design delivers uniform flow over the pressure range.
- Available in 3 models: quarter, half, and full patterns with matched precipitation rate.
- Virtual no-mist performance from 20psi to 50psi.
- Shipped with blue filter screen (0.02" x 0.02") to maintain precise distance of flow, and to prevent clogging.
- Compatible with all 1800 Sprays, Xeri-Pops, New PolyFlex Riser Adapter, UNI-Spray, and SCH 80 risers.
- Three-year trade warranty.
