

Dual Purpose Rake 36in

RP12536

Details

This innovative and versatile rake features two tooth designs. The "V" teeth on one side scarify, break up hard packed clay and grading. Flip the head over and the long teeth are for wet clay and general raking. Sturdy wrap-around support braces for commercial use on the powder-coated 66" blue aluminum handle with 6" non-slip grip.

- Two tooth profiles
- Short teeth scarify, break up clay, and grade
- Long teeth for wet clay and general raking
- Warp-around support bracing
- Powder-coated 66" aluminum handle
- Non-slip grip for comfort
