

Macabee Gopher Trap

RP2875

Details

Control the unwanted burrowing damage from moles to greens, tees, fairways and landscaping! The Macabee Pocket Gopher Trap is known as the most reliable trap on the market and has been manufactured for over 100 years. Effective, simple to use, heavy duty trap, made of high carbon spring steel for extended life. It can be set quickly and easily by hand, and can be placed using two different methods. A single trap can be placed down into a lateral tunnel, for captures when the gopher is exiting the tunnel. They can also be placed in pairs, back to back, by digging down to the main tunnel. Will not clog or rust. Designed for quick, humane kill. Enameled green paint

- High carbon steel construction
- Designed for quick, humane kill
- Will not clog or rust
