

Kaput Mole Gel Bait - 3 oz

RP2885

Details

Solve your mole problem with the Kaput mole bait syringe containing an effective gel formula. This EPA approved product attracts moles by simulating the smell of its natural prey. Easy to use. Simply insert the syringe tip into the top of the tunnel, gently press the plunger and inject 1/2 oz. applications into the tunnel. Use one syringe (6 injections of 1/2 oz.) per active burrow. (Not approved in ME or CA).

- EPA-approved
- Effective gel bait
- Simulates smell of their food source - worms and larvae
- One syringe (6 treatments of 1/2 oz.) per active burrow
- Not approved in ME or CA
