

Fiberglass Dew Whip

RP7410

Details

This telescopic 6.5' handle and 6' tapered fiberglass pole provides a long reach to remove dew and other light debris. Pole rests within handle for transport and quickly extends out to a 12' operating length. Tapered design allows for extension without the need of thumb screws. Strong and lightweight.

- Tapered fiberglass pole extends to a 12' operating length
- Strong and lightweight
- Quickly removes dew and light debris
