

Greens-Mate Divot Repair Tool

RP895

Details

Repair ball marks, divots and turf imperfections by dispensing a metered amount of dry material without bending over. It's faster and requires less effort. Designed with a flat bottom base to prevent the nozzle from touching the ground, eliminating clogging from morning dew. For a perfect repair, place over the imperfection, tap the top knob, then lightly tamp with the base. Optional divot nozzle automatically dispenses material for divot repair. Carry strap included. Sold separately.

- Repair ball marks quickly and fully without bending over!
- Easy to use
- Divot nozzle for automatic dispensing available separately
- Carry strap included
