

Quick Dam Flood Bags - 12" x 24" - 20/Box RQD1224-20

Details

Quick Dams activate and grow to 3.5 inch high sandbag in minutes with a contained super absorbent powder that swells and gels when wet. Compact, lightweight, ready to use and no sand needed. Simply place in the path of problem water and watch a Quick Dam quickly absorb 4 gallons of water. Easily stacks in brick or pyramid formation to build a retaining wall. Provides continuous protection for several months, if needed. Not for salt water use. Reusable. Environmentally friendly. Black. Bag / 20.

- Self activated bags contain and divert water
- Each bag absorbs 4 gallons of water within 10 minutes
- Bags contain a super absorbent powder that gels water
- Leave bags in place up to 8 months for ongoing protection
- Stack bags in a brick or pyramid formation to create a protective barrier
- Use through the winter for thaw protection
- Non-hazardous, non-toxic, environmentally friendly
- Great for use on golf courses and athletic fields
- Reusable
