

Quick Dam Flood Barrier - 5' - 26/Box

RQD65-26

Details

Compact, lightweight, ready to use and no sand needed. Quick Dam Flood Barriers contain a super absorbent powder that swells and gels when wet. The Flood Barriers may be stacked 3 feet high to create a sturdy protective barrier to contain or divert flood water. Built-in wedge prevents rolling out of position. Non-hazardous and non-toxic. Available in 5', 10' and 17' lengths. Reusable. Black.

Specifications
