

Solo Diaphragm Pump Backpack Sprayer - 5 gal

RSL485D

Details

This Solo high-performance diaphragm pump model provides a lower pressure (maximum of 60 psi) to produce larger liquid droplets with less spray drift. Its rod-actuated diaphragm pump is able to pass small abrasive particles such as wettable powders and sprays without damage to the pump assembly, making it ideal for golf courses and athletic fields.

- High-performance diaphragm pump
- 5 gallon capacity
- Low pressure for less drift
- Rod-actuated pump to avoid damage from abrasives
- Idea for golf courses and athletic fields

Specifications

Manufacturer	Solo
