

TeeJet Spray Tip - XRC11004-VS Red

RTJXRC11004-VS

Details

A flat fan spray pattern providing uniform coverage and reduced drift at lower pressures and smaller droplets at high pressure for thorough coverage. VisiFlo color coded nozzles have a stainless steel core for longer life. Recommended for spray controller systems. XRC nozzle made up with the XR TeeJet tip molded into Quick TeeJet cap providing automatic spray alignment. Includes tightly fitting washer that stays put and assures a good seal. Nozzle spacing 20 ". Pressure range 15 - 60 psi.

- Tapered edge flat spray pattern for uniform coverage in broadcast spraying.
- Reduces drift at lower pressures, improves coverage at higher pressures.
- Various XR orifice materials are permanently assembled into reinforced nylon Quick TeeJet caps, providing reliable XR performance, convenient installation, and automatic pattern alignment.
- Includes tightly fitting gasket that stays put and assures a good seal. Replacement gasket part number: CP19438-1-EPR

Specifications

Manufacturer	TeeJet
Nozzle Capacity Size	Red
Nozzle Material Code	Stainless Steel
