

Solo Internal Pump Backpack Sprayer -

4 gal

RSL424-NOVA

Details

The 4-gallon Solo Nova 424 is ideal for basic spraying of fungicides, herbicides, insecticides and for approved plant protection chemicals. The internal piston pump system incorporates an effective mixing system by keeping the liquid in the tank constantly agitated. Features a 48in high-pressure hose, 28in unbreakable wand and shut-off valve assembly to provide excellent reach. The multi-pattern Speed Tip nozzle features jet stream, flat spray and full cone mist with just a turn of the dial. For reduced operator fatigue, the tank and base are designed to contour to your back and includes comfortable shoulder straps and carrying handle. 4 Gal.
